Notes on 10/21 meeting:

The meeting notes from 9/21 include all comments that were written on the flip charts during discussion, more or less in order and with no attributions. For the purposes of today's discussion, we've categorized those comments into general subjects in a separate document. A comment might appear twice if it applies to more than one subject. We will discuss the topics and categorization during the meeting. If you feel that a comment you made was not correctly interpreted you will have a chance to correct that.

During the last meeting we distributed reprints of a chapter from Lloyd Kahn's book. We will discuss this in more depth as part of item 3. If you need another copy of this document please contact Dan or Cas.
