

KNOW THE PYRAMID OF HATE

The bottom two rungs of the Pyramid of Hate look harmless. In fact, if we as a society accept these types of acts as appropriate, then we are allowing a base of prejudice to form. Some people will continue up the Pyramid, performing acts on the top three rungs. These acts become increasingly more violent. The **Sonoma County Commission on Human Rights** is working to raise awareness and to give members of the community-at-large the awareness and skills to keep this base of prejudice from developing. For more information, call the Commission of Human Rights at 707-565-2693.
