California Department of Agriculture Organic Program
ORG100-LSL (Rev 12/07)
Livestock Substance List

Registration Number: ____ - _____
Assigned by the Principal County:

In lieu of completing this document I have attached (name attachment) _____ which will provide the same information that this document requests.

The National Organic Program allows for the use of specific livestock treatments… Indicate below what treatments you are using. If you are a dairy operation you may need to complete the Facility Substance List to show what you are using to clean equipment. You may indicate those on this form if there is sufficient room.

Indicate the date the material, or substance was applied or frequency of applications.

Indicate the generic identity of the material, or substance IE: Pest control, sanitizer, medical treatments, feed additives, etc….

Indicate the source.

Indicate the total amount of product used, either in pounds, ounces, or number of packages and size of packages. Or treatment identifiers

Indicate the brand name of the product used.

Indicate the pounds or gallons or treatments used per animal for flock.

Date	Material, or Substance	Source	Brand Name	Rate	Total Usage
