Bottom Line Savings

- Energy savings: More than \$1 million annually
- Water savings: More than \$300,000 annually
- Solid waste savings: More than \$250,000 annually

Energy

- Turn off lights and air conditioning when buildings not in use; installed occupancy sensors to turn off unnecessary equipment when employees are not at their work stations.
- Installed more than 100 variable frequency drives, heat recovery systems, new efficient chillers, cooling towers and controls.
- Lighting systems updated to more efficient systems, including T8 lights.
- Installed a computerized system with more than 3,000 control points to monitor and control energy use and building systems.

Recycling/Reuse

- Greater than 87% diversion rate from landfill with solid waste management program.
- Desk-side collection of all recyclable materials from employees

Water

- Reduced the amount of water used in industrial processes.
- More than 60% of our industrial waste water is recycled for process use and landscaping.

Emissions:

- More than 3,000 metric tons of greenhouse gas reduction annually due to energy efficiencies.
- Employees are encouraged to participate in the City of Santa Rosa's "Take the City for a Free Ride" program which promotes alternate transportation.

Best Practices
