Website	www.roofingservicesinc.com

Bottom Line Savings

- \$16,000 in recycling over one year.

Energy

- New building with energy efficient lights and multiple switches, making it easier to adjust light intensity.
- Have HVAC units set to run most efficiently with several zones, as well as shutting down during off hours.
- RSI has insulated its office building beyond code requirements.

Recycling/Reuse

- RSI has teamed with several local businesses to recycle almost all of their scraps. In total around 233.3 tons of waste has been diverted from the landfill, at a savings of almost \$16,000.
- Wood scraps are sent to Dan Davis, who shreds it and uses it for landscaping—normally, sending 78 tons of scrap wood to a landfill would cost RSI \$5,735; by recycling the wood they pay \$775 for removal, saving almost \$5,000.
- By taking metal scraps to Santa Rosa Recycling, RSI has already diverted over 90 tons of metal from the landfill and has saved \$6,000.
- Concrete tiles are given to a local recycler to use for gardens and roadbeds for a savings of \$3,700.
- Recycling cardboard at the Santa Rosa Recycle Center has saved almost \$1,000.
- RSI is now sending all yard trash to a local recycler who sorts it and recycles more to other sources.

Water

- Have replaced lawn with drought hardy trees, shrubs, and flowers.
- Installed low flow toilets.
