Ordinance 5779, effective July 1, 2008

Alternatives - Results of Non-Approval:

The Sheriff's Department would maintain fees at the existing levels. This would limit the ability of the Sheriff to recover the full cost of performing special services.

Background: (on file w/clerk: Analysis of FY 09-10 User Fees)

Executive Summary:

The attached Fee and Revenue Summary Chart provides an itemization of proposed fees to be established by the Board of Supervisors and collected by the Sheriff's Department. Fees set by statute, such as civil process fees, are not addressed in this agenda item. With the exception of Helicopter revenues, all fee adjustments have been anticipated in the Department's FY 09-10 budget request.

The proposed FY 09-10 fee rates reflect an overall net fee revenue increase of \$32,265. The Sheriff's Department uses actual salary and benefit rates, derived from the County Budget System, in all fee calculations. Significant areas of change include a projected increase of \$4,418 in the Central Information Bureau, a projected increase of \$27,068 for Patrol services and an increase in Coroner's fees of \$779.

Central Information Bureau, Patrol, Coroner:

The Central Information Bureau has a recommended net increase in fee revenue in the amount of \$4,418. This increase is derived from establishing two new fees as a result of new technology; one is for ten print fingerprint card reports and the second for photo line up color copies, and cost of business adjustments (COBA) for FY 09-10.

The ten print fingerprint card reports are generated by Sheriff detectives. The detective obtains a latent print at a crime scene and runs it through an automated fingerprint ID database. A list is generated of comparison candidates. Private attorneys and public defenders have recently requested the report. With no track record of requests, we assume 10 will be performed in the FY 09-10 budget at \$25 per request (15 minutes of detective time).

Just recently private attorneys and public defenders are requesting color photo line-up copies of the booking photo. The color copies provide more accuracy for identification purposes. Again, because of the lack of experience, we are estimating 10 requests for FY 09-10 at \$50.25 per request (30 minutes of detective time). Extra copies are \$25 (15 minutes of detective time).

Background (Continued):

Patrol fee revenues are recommended to increase \$27,068. \$19,902 of the recommended increase is due to a change in rate to reflect both the change in COBA and indirect costs such as Administration, Dispatch, and the Central Information Bureau. The remaining \$7,166 is derived from decreases from Fleet Operations for vehicle charges associated with security services, off set by increases in towed vehicle release fees.

Coroner's fees are recommended to increase by \$779. An increase of \$644 is attributable to utility costs, insurance, and facility maintenance costs for the Base Morgue Use Fee. The remaining increase of \$135 is attributable to the change in COBA and indirect costs such as Administration, Dispatch, and the Central Information Bureau.

Helicopter

The Sheriff's Department Helicopter Unit is actively searching to bring in additional revenues for the helicopter program. As a result, the Sheriff's Department will institute a new service policy to charge for law enforcement air support services in FY 09-10. The Department determined that based on operational experience; the emergent portions of most air support calls for service are resolved within the first 15 minutes of the event. The emergent portion of the call is defined as the period of time where an immediate threat to life exists. At the 15 minute mark, the helicopter will continue to provide air support only at the request of the other agency, who will then be billed for ongoing services. Requests for non-emergency services, such as surveillance or follow-up investigations, will be charged from the time the helicopter leaves the hangar. Fees will also apply to other government agencies and County departments that occasionally request our services for non-emergency activities. Additionally, the fee will be used to charge private parties who desire to use air helicopter services for security service contracts. As we have no prior experience providing these services, and knowing law enforcement agencies will likely be cutting back enhanced law enforcement services due to the negative economic situation, we are not projecting any fee revenue for this service for FY 09-10.

The rates for Advanced Life Support (ALS) helicopter flights have increased by 7.9% due primarily to an increase in projected paramedic services costs. Fee rates for ALS are calculated using the percentage of ALS flight hours to total helicopter flight hours. Due to interpretation of applicable laws, the Department refrained from billing for these costs in the past, but has recently received an opinion from the Federal Aviation Administration that it may seek reimbursement for the costs of ALS services when no other air ambulance is available (County Counsel opinion to confirm issue is pending). The Department thus now intends to resume ALS billing to persons and their private insurance companies; however, we do not believe that we yet have the authority to bill Medicare or Medi-Cal for such costs. The Department has applied for authorization to issue such billings, but has yet to receive such authority; due to the "public use" character of the helicopter, it is uncertain whether we will ever receive such authority. In addition, whether a particular service recipient or their private insurance company will pay the billed ALS costs is uncertain due to a number of variables (e.g., financial solvency/ability to pay, policy coverage limits, etc.). Accordingly, we have not included an estimate of billings for ALS costs in FY 09-10. When we have additional information on the variables that will allow us to provide such an estimate, we will provide the estimated expected revenues through a technical adjustment.

Search and Rescue (SAR) fees have increased by 18.1% due to an increase in the expected paramedic services costs, fuel costs, and the inclusion of Department indirect overhead costs. Overhead costs are included in determining the Department fees. In the past we did not include these costs and are including them now. Consistent with prior years, no billable search and rescue services are projected for FY 09-10. Due to the mutual aid understandings between California's law enforcement agencies, very few if any helicopter search and rescues are billable. Billable rescues would include those performed for out of state residents. We have not incurred a billable service for approximately three years.

Background (Continued):

Law Enforcement fees are increasing by 24.6% due to the addition of Department indirect overhead costs. The "Law Enforcement" rate applies to special law enforcement missions, such as air support services during foot pursuits of fleeing suspects, robberies or other crimes in progress, major traffic accidents, and other potentially life-threatening emergencies.

Other Fees:

Several fees are proposed to remain unchanged as a result of either statute limitations or no change in underlying costs. These fees are as follows: Gaming Table Permit; Concealed Weapons Permit; Bingo Permit; Miscellaneous Copies; and Fingerprinting. Those fees with no change in underlying costs are Gaming Table Permit and miscellaneous copies. Those limited by statute include Concealed Weapons Permit, Bingo Permit, and fingerprinting.

An analysis of FY 09-10 user fees has been prepared to illustrate the methodology used for fee calculations and to demonstrate that the proposed Sheriff's Department fees are based on amounts reasonably necessary to recover the cost of providing the service described. This document is on file with the Clerk.

Service Improvement Plan

The Sheriff's Department continues to ensure the most effective use of personnel in providing services to the public. The following is a list of measures taken by the Department to develop and maintain personnel efficiency:

- Provide training to all personnel involved in service delivery to ensure full understanding of the job tasks and to develop proficiency in these tasks.
- Procurement of technologically advanced equipment that provides Department efficiency which results in reduced labor costs.
- Encourage personnel to continually review processes and suggest measures to increase efficiency.
- Provide regular supervision of the activities to verify that tasks are performed effectively and to identify new ways to improve service delivery.

Through training, employee input, and supervisory overview, the Department expects to maintain a high level of effectiveness, thereby keeping fees at minimal levels.

Therefore, the Sheriff requests the Board of Supervisors adopt the ordinance establishing the fees to be collected by the Sheriff's Department during FY 09-10.

Total Potential Revenue Adjustment Due to Rate Changes \$32,265.45

COMMENT:

The proposed FY 09-10 fee rates reflect an overall net revenue increase of \$32,265.45. The principle contributing factors that caused this overall increase are increases in cost of business adjustments, vehicle release fees, and the addition of two new copy fees.

NOTES:

This chart addresses only those fees where the amount is established by ordinance of the Board of Supervisors; it does not address fees fixed by statute. A separate document that provides detailed analysis and basis for the proposed fees is on file with the Clerk.

- 1 *The State fingerprint fee (currently set at \$32 by statute) must be added to the fee amount in calculating the total charged for these services.*
- 2 *To expedite services to users, the recommended fees over \$100 have been rounded down to nearest one dollar, between \$20 and \$99.99 rounded down to the nearest \$0.25 and below \$19.99 down to the nearest \$0.10. The only exceptions to these rounding methods are rates for security services, and rates for response to unabated disturbances.*

ORDINANCE NO. _____

AN ORDINANCE OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SONOMA, STATE OF CALIFORNIA, ESTABLISHING FEES FOR VARIOUS SERVICES PROVIDED BY THE SHERIFF'S DEPARTMENT.

The Board of Supervisors of the County of Sonoma, State of California ordains as follows:

SECTION I: The Sheriff's Department provides certain services for particular individuals and organizations that are considered extraordinary levels of services.
