**Background:**

On December 9, 2008, the Board approved an agreement with Kleinfelder, Inc., to provide technical services for the landslide repair project for Sonoma Mountain Road that was awarded to Argonaut Constructors on August 8, 2008. Kleinfelder, Inc., performed preliminary geotechnical work and provided the technical concept and details for the project plans and specifications. This project is taking longer than scheduled and increased funding for the agreement with Kleinfelder is necessary to keep them on site. When the project was awarded, the time allowed for the work anticipated completion in December of 2008. Argonaut Constructors has experienced difficulties in performing the work and has fallen behind schedule. Though the work is not progressing as rapidly as planned, it is essential we monitor and inspect the work on a daily basis. A first amendment for \$20,000 was approved by the Board on February 24, 2009, bringing the contract total to \$60,000. A second amendment for \$20,000 was approved by the Board on April 6, 2009. Progress on the project has continued to exceed estimates, so a third amendment is necessary to keep Kleinfelder, Inc., on the project. Increased funding of \$40,500 is requested to continue to pay Kleinfelder, bringing the contract total to \$120,500. Funds for this agreement are from the Prop 1B funds budgeted for this project in the adopted FY 08-09 Roads Improvements budget.
