If the Fire Code Official determines that an indoor or outdoor event has an adverse impact on public safety (diminished access to buildings, structures, fire hydrants and fire apparatus access roads) or public safety services, the Fire Code Official shall have the authority to order the development of, or prescribe a plan for the provisions of an approved level of public safety. The public safety plan shall address such items as emergency vehicle ingress and egress; fire protection; emergency medical services; public assembly areas; directing of attendees and vehicles (including the parking of vehicles); vendor and food concession distribution; the need for law enforcement, and fire and emergency medical services personnel for such event. **(CFC Sec. 403).**

Fire Watch personnel shall have access to an emergency services (911) alert system; fire extinguishers and firefighting equipment as necessary; keep diligent watch for fires, obstructions to means of egress and other hazards during the event when accessible to the public or such activity is being conducted, take prompt measures for remediation of hazards, extinguishment of all fires, and assist in the evacuation of the public from the structures (if needed). **(CFC Sec. 403).**
