**Development Information**

County Mental Health Department: Department of Health Services, Mental Health Division

Name of Development: McMinn Avenue - Shared Housing

Site Address: 1228 McMinn Ave., Santa Rosa, CA

Development Sponsor: Community Housing Sonoma County

Developer: Community Housing Sonoma County

Primary Service Provider: Sonoma County Mental Health Division

MHSA Service Provider: Sonoma County Mental Health Division

Type of Development: Shared Rental Housing – Existing Structure

Total Units: 4, 2-bedroom units

Total MHSA Units: 8

Total Cost of Development: \$1,115,691

Amount of MHSA Funds Requested: \$609,856

Request MHSA Funds for Capitalized Operating Support: Yes

Other Rental Subsidy Sources: None

Target Population: Adults and Older Adults

County Contact: John Lynch, LCSW,

## MENTAL HEALTH DIVISION

### MHSA HOUSING PROGRAM

#### PROJECT OVERVIEW

#### MCMINN AVENUE - SHARED HOUSING

##### 4.2.1 Project Overview

A) See attached Development Summary Form

B) Narrative Development Description

##### Permanent Supportive Housing

McMinn Avenue - Shared Housing will provide new permanent supportive housing for 8 Mental Health Services Act (MHSA) target population adults in an existing four-plex apartment house with each unit providing 2 bedrooms with lockable doors, a kitchen, living room and full bathroom.

The MHSA housing program at McMinn Avenue - Shared Housing will serve adults who are homeless or at risk of homelessness and have a psychiatric disability. Consistent with the MHSA Community Support and Service Plan (CSS) and the MHSA definition of target population, the individual must be an adult with an untreated or under-treated major mental illness, especially persons with Schizophrenia, Schizoaffective Disorders, Psychotic Disorders, Major Depression, Bipolar disorders, severe Personality Disorders such as Paranoid Personality Disorder and Borderline Personality Disorder, as well as persons who have Co-occurring Disorders (mental illness and substance abuse or mental illness and a developmental disability). All potential residents must be referred to McMinn Avenue - Shared Housing through the Sonoma County Mental Health Division (SCMHD) MHSA Housing Program.

##### Supportive Services Program

The SCMHD will support McMinn Avenue - Shared Housing in meeting anticipated MHSA outcomes by assisting residents to succeed in their wellness, allowing for re-integration into the community, reduced hospitalizations, reduced incarcerations, and increased employment.

MHSA services will be full wrap-around integrated services provided by a SCMHD multi-disciplinary team. The services and goals will be developed in partnership with each tenant and will be client-directed, utilizing a strengths-based approach. Services will include “whatever-it-takes” to support the tenant in maintaining housing. The multi-disciplinary team will include a psychiatrist, nurse, mental health consumers and personal service coordinators. While all

services will be voluntary, a range of mental health services shall be offered and available to all tenants who express desire for such services.

The complete supportive services program will include, but not be limited to: assessment and evaluation, emergency assistance with food and clothing as needed, individual goal/service planning, assistance in accessing mainstream benefits, case management, independent living skills development, transportation assistance, money management and financial education, medical assessment, treatment and referral, addiction disorder treatment, employment services and opportunities, crisis intervention, leadership development, peer support, community building and any other services as needed. Services will occur both on and off site and occur with a frequency that is individually determined. Supportive services staff will also assist tenants in accessing County and other outside services as appropriate to meet all of a resident's needs. Assertive engagement focusing on developing relationship and trust shall be provided to those individuals who initially decline services.

### Unit and Site Design

1228 McMinn Avenue is a two-story four-plex with two units each on the first and second floors, respectively. Access is provided to the two upper units by a shared exterior stairway that bisects the building. The building is sited on the eastern side of McMinn Avenue on a .26 acre lot. The property is surrounded by other rental apartments to the north, east and south. Single family homes and open space are located across McMinn Avenue from the property.

The two upper-floor units have small balconies and the two lower units have patios. There is a carport and a locked storage closet for each unit.

The property has minimal landscaping, but is nicely accented with large, mature trees. Gravel and small shrubs comprise the remaining landscape features, reducing both maintenance and water needs.

The site is located in the Roseland area, within walking distance of a grocery store, shops, banks, restaurants, and community service organizations. A public transit bus stop is located within 100 yards (Santa Rosa City Bus Route: 9). The site is located in a diverse, mixed-use neighborhood, which consists of commercial businesses, apartments, single-family homes, and an array of community services. Provisional planning is underway to centralize County health and social services in the Roseland area, thereby enabling walkable access to support services for residents of McMinn Avenue.

### Project Partners and Funding

Community Housing Sonoma County (CHSC) is the project sponsor and developer. Sonoma County Mental Health Division (SCMHD) will be the lead service provider for all tenants. Eugene Berger Management Corporation (EBMC) will provide property management services. In addition to this application for capital funding from the MHSA Housing Program, CHSC will also be seeking funding through the City of Santa Rosa Department of Economic Development and Housing.

# COUNTY OF SONOMA DEPARTMENT OF HEALTH SERVICES

## MENTAL HEALTH DIVISION

### MHSA HOUSING PROGRAM

#### SUPPORTIVE HOUSING AND SERVICES INFORMATION

##### MCMINN AVENUE - SHARED HOUSING

#### **D. 1 Consistency with Three-Year Program and Expenditure Plan**

The Sonoma County Mental Health Division (SCMHD) Mental Health Services Act (MHSA) Community Support and Services (CSS) Adult Stakeholder committee ranked housing and support services as the number two priority for the adult population. Safe and adequate housing, including safe living environments for families, was also included as one of the CSS plans “Outcomes To Be Achieved For Individuals” served by the MHSA programs.

The Permanent Supportive Housing Program for Individuals and Families is described in the CSS Plan submitted to and approved by the State DMH as a Full Service Partnership which provides integrated, comprehensive, culturally-competent, supportive housing subsidies and services to the underserved population and anticipates that permanent housing units will be developed through SCMHD partnership with private nonprofit developers. McMinn Avenue - Shared Housing, developed through a partnership between SCMHD and CHSC, a local nonprofit housing developer, will be an important element of the MHSA program. It will provide new permanent supportive housing with full wrap-around, integrated services for 8 MHSA target population adults residing in 4, 2-bedroom MHSA housing. The supportive services program will support McMinn Avenue - Shared Housing MHSA tenants in meeting anticipated outcomes by supporting these participants to succeed in their wellness, allowing for re-integration into the community, reduced hospitalizations, reduced incarcerations, and increased employment.

#### **D. 2 Description of Target Population to be Served**

The MHSA housing program at McMinn Avenue - Shared Housing will serve adults who are homeless or at risk of homelessness and have a psychiatric disability. Experience and history indicates individuals served will have a history of multiple challenges, including co-occurring addiction disorders and complex medical and health issues. People in the MHSA target population often have had frequent contact with law enforcement primarily as a result of their untreated disability and lack of a support system. For some, psychiatric hospitalizations and hospital emergency room visits will be the only “treatment” they will have received. A high percentage of the individuals will have SSI/SSDI and some no income at all, having either no work history and/or lost connection with the Social Security Administration for entitlements.

#### **D. 3 Tenant Selection Plan**

(1) Threshold Eligibility Criteria:

McMinn Avenue - Shared Housing will have 8 housing units for tenants. All the units will be affordable to extremely low-income individuals (with incomes less than 30% AMI).

We will target the 8 MHSA-designated units to individuals who meet the MHSA definition of being homeless or at risk of homelessness and also meet the DMH definition of the MHSA Housing Program target population including SPMI adults and older adults.

(2) Other Eligibility Criteria:

Other criteria all relate to the prospective tenant's ability to comply with the terms of the lease, including paying rent, maintaining the apartment and not presenting an unacceptable risk to the health, safety and right to peaceful enjoyment of other tenants.

(3) Marketing/Outreach:

The owner will indicate very clearly that we are an equal-opportunity housing provider that does not discriminate on the basis of race, color, religion, national origin, sex and more. Housing opportunities will be provided to households with persons with disabilities in accordance with state and federal policies that allow targeting to such households to ensure equal access to affordable housing.

We will have an affirmative marketing plan that provides for the project to be publicized to minorities using minority media and other outlets; use the HUD equal opportunity logo in all advertising and literature; use a multi-lingual, multi-cultural and racially-diverse team of men and women to publicize the project and interview applicants; and train all interviewers in the areas of non-discrimination and fair housing.

(4) Referral Sources:

The project will be widely publicized within government and non-profit agencies serving target populations in Sonoma County. CHSC and SCMHD are both very active members of the Sonoma County Continuum of Care and collaborate on a regular basis with virtually all service providers in the Continuum. We will use meetings, email, letters and other vehicles to keep interested parties posted on the progress of the project.

We expect referrals from many agencies. For example, we work closely with the following agencies: Community Action Partnership, which provides a wide array of services to people in Sonoma County; Catholic Charities, which serves homeless people and has a strong multi-lingual, multi-cultural team for working with the County's large Hispanic population; the Committee on the Shelterless (COTS), which provides a wide array of services to homeless people in southern Sonoma County; Disability Services and Legal Center, staffed by people with a disability, who work with us to house and serve the physically disabled; and Community Support Network and Buckelew Programs, serving the seriously mentally ill, with whom we collaborate in housing our mentally disabled clients.

(5) Application Process:

We plan to pursue a clear and simple application process to ensure fairness and consistency. We will use one housing application which asks all of the questions to determine eligibility for the type of housing offered by the project. We will accept applications on a first-come, first served basis, time-stamping and numbering applications for this purpose. We will maintain a single waiting list with each applicant's eligibility noted. When a unit is available, the highest eligible applicant on the listed will be notified.

The Sonoma County Mental Health Division (SCMHD) will conduct an initial interview to i) assist the applicant in determining if the project makes sense in terms of the applicant's needs and goals; ii) help the applicant assess and document eligibility as well as assist the applicant in understanding the key conditions of the leasing agreement; and iii) discuss how services may assist in achieving the applicant's goals and in meeting the conditions of the leasing agreement.

The property manager, will: i) determine if the applicant is eligible for the project; ii) determine if the applicant's paperwork is complete and satisfactory, iii) determine whether the applicant has the ability and the intent to comply with the conditions of the lease; and iv) make the final decision whether or not to rent to the applicant.

#### (6) Tenant Screening:

Screening will focus primarily on the following subjects:

- Applicant's ability to meet the requirements of tenancy, particularly income.
- Applicant's qualification for a dwelling available only to certain persons, such as those that are homeless or at-risk of homelessness and/or with a qualifying disability.
- Applicant's current use/abuse of controlled substances.
- Applicant's conviction of crimes that involve physical violence to persons or property, drug-related crimes, sex-related crimes and crimes that would affect the health and safety of other tenants if a like crime occurred in the project.

The screening will be conducted by the property manager at a location convenient to the applicant and property manager. The SCMHD personal services coordinator may be present if the applicant and the property manager both consent. The applicant will be given an opportunity to tour the site as part of the process.

Third party verification of eligibility will include the following:

- Income – We will accept Section 8 vouchers, we will use a “demonstrated ability to pay rent” vs. a “minimum income standard” and we will count the collective income of all members of the household. Pay stubs, bank account statements showing SSI/SDI credits and similar documents will serve to establish the applicant's income levels.
- Homeless/At-Risk of Homelessness – we will use the DMH definition for MHSA Housing target population as verified by the Mental Health Team responsible for

provision of Mental Health services to document participant eligibility. We are very familiar with these procedures.

- Disability Status – SSI award letters and letters from a doctor or other licensed medical professional indicating the applicant is disabled will be used to verify disabilities.
- Severe and Persistent Mental Illness– SCMHD client plan will be used to verify SPMI status.

(7) Fair Housing:

SCMHD has extensive experience in working with people with a wide range of disabilities as well as backgrounds/records that prevent them from establishing stable, productive lives for themselves and their children. With this experience, SCMHD will be able to assist the property manager in evaluating negative information and determining when and under what conditions reasonable accommodation should be made. Our experience has taught us that a negative history can be overcome with the right intention and the proper support.

## **D. 3.a SCMHD Tenant Referral and Certification Process**

### **I. Application Process**

SCMHD MHSA Housing Unit commits to a standardized tenant application and certification for all potential tenants of the program. At the time the request is made, the applicant will be informed that a decision as to MHSA eligibility will be made within 14 days of receipt of his/her application. The criteria for the MHSA Housing Program are (1) being homeless or at risk for being homeless and (2) meeting Sonoma County's adult target population criteria for mental illness and/or the target population criteria for serious emotional disturbance for children and their families. It should be noted that the listed criteria may not be congruent for specific housing developments such as those designed to provide family housing or housing just for single adults. The MHSA program eligibility, however, is the standard criteria for the MHSA Housing Program eligibility and certification. The SCMHD MHSA Housing Unit or its designee will assess applicants for homelessness and at-risk of homelessness as well as mental health disability. Those clients who are MHSA Housing program-eligible will be certified and verification of homelessness, at-risk of homelessness, and mental health disability will be documented. Referrals for application will come from a variety of sources. Sonoma County has an extensive system of care for individuals and families who are homeless. Examples of potential sources of referral include several single adult shelters, both emergency and short-term, family shelters, outreach and case management teams, transitional residential programs, hospitals, acute psychiatric facilities, jails, as well as self-referrals. Any potential applicants who contact housing developments directly will be informed by the property management or program staff at the development to contact the SCMHD MHSA Housing Unit for MHSA certification. County staff or its designee shall offer assistance to all applicants, if desired by the applicant, with completing the application. Once certified, the appropriate SCMHD team shall assist with all related application procedures for a specific project. This shall include assistance with all required documentation (background checks, credit checks, third-party income verification, landlord and

other references) as well as transportation and accompanying the individual to any required interviews.

## **A. MHSA Housing Program Eligibility**

### 1. Homelessness

The individual must be moving from emergency shelter or transitional housing, or the individual must be currently homeless, meaning that he or she:

- a. lacks fixed, regular and adequate nighttime residence,
- b. has a nighttime residence that is a publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill),
- c. has a nighttime residence that is an institution that provides a temporary residence for individuals intended to be hospitalized
- d. has a nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings

### 2. At Risk for Homelessness

The individual must be:

- a. a transition age youth exiting the child welfare or juvenile justice systems,
- b. an individual discharged from an institutional setting, which includes hospitals and acute psychiatric hospitals/health facilities,
- c. an individual currently residing at a skilled nursing facility with a certified special treatment program for the mentally ill (STP),
- d. an individual currently residing at a crisis and transitional residential setting,
- e. an individual released from County jail,
- f. an individual temporarily living in a Board and Care facility upon discharge from one of the institutional settings cited above
- g. an individual who is currently receiving Sonoma County Mental Health Services and is at imminent risk for homelessness. Imminent risk is defined as individuals or families becoming homeless within 14 days.

### 3. Adult Target Population Criteria for Mental Illness

To qualify:

- a. Adults must have at least one of the following diagnoses:
  - i. Schizophrenia
  - ii. Schizoaffective Disorders
  - iii. Psychotic Disorders
  - iv. Major Depression
  - v. Bipolar disorder
  - vi. Paranoid Personality Disorder
  - vii. Borderline Personality Disorder

- viii. Co-occurring Disorders (mental illness and substance abuse or mental illness and a developmental disability)
- ix. Other diagnoses or criteria established in the future by Sonoma County's Mental Health Division as allowed by the Mental Health Services Act and in accordance with the priorities identified in the Community Services Supports component of Sonoma County's Three-year Program and Expenditure Plan.

AND

- b. Adults must also meet at least one of the following criteria:
  - i. Functional impairments due to an untreated or under-treated mental illness that prevents engagement in meaningful activities and inability to remain in housing
  - ii. Frequent incarceration or psychiatric hospitalizations due to untreated or under-treated illness
  - iii. Special consideration will be given to the ethnically and culturally unserved/ underserved populations among the homeless and mentally ill, especially in the Vietnamese, Eastern European, Native American, and Latino communities

**B. Determination of Eligibility**

Upon receipt of the application for certification, SCMHD MHSA Housing Unit staff or its designee shall make sure all the information is complete and/or request the referral source or the applicant to either explain the incomplete information or provide the missing information.

1. Certification of Diagnoses

SCMHD MHSA Housing Unit will obtain verification and certification of eligible target population diagnoses by:

- a. accessing SCMHD-held records of diagnoses determined in jail or the Sonoma County Mental Health Treatment Center or other Sonoma County contracted mental health service programs
- b. arranging for assessment and diagnosis by a licensed mental health clinician through its own staff or other SCMHD-contracted eligibility agency in situations where there is no documented history in SCMHD records
- c. accepting a diagnosis provided by a treatment center or institution referring the applicant to the MHSA program

2. Certification of Homelessness

- a. For homelessness, Sonoma County SCMHD will obtain written verification from the staff of the following:

- i. a transitional housing facility, emergency shelter, other shelter designed to provide temporary living accommodations for homeless individuals
  - ii. an acute psychiatric facility which admitted the individual from homelessness
  - iii. a hospital which admitted the individual from homelessness
  - iv. Sonoma County jail which admitted the individual from homelessness
  - v. If a homeless applicant is coming directly from the Avenues or other place not meant for human habitation, the verification could come from staff of an outreach, service or other organization that has assisted the applicant in the recent past.
  - vi. If unable to obtain third-party verification, the applicant or supportive services program staff may prepare a short statement about the person's previous living situation for the applicant to sign.
- b. For at-risk-of-homelessness, Sonoma County will obtain written verification from the staff of the following systems and/or institutions:
- i. for transitional age youth, from the agency in which the youth shall be exiting (child welfare or juvenile justice systems)
  - ii. hospitals, including acute psychiatric hospitals, psychiatric health facilities, skilled nursing facilities with a certified special treatment program for the mentally ill, and mental health rehabilitation centers
  - iii. crisis and transitional residential settings
  - iv. Sonoma City and County jail
  - v. Residential care facilities
  - v. Certification from a Sonoma County Mental Health service provider when the individual and/or family is at imminent risk of homelessness

## **II. MHSA Housing Program Wait List**

SCMHD shall maintain the housing wait list for all certified MHSA Housing Program applicants. This list shall be maintained according to the following procedures:

### **Notification Letter**

When a new development in the MHSA Housing program is being rented up, or when existing units are expected to become vacant, the housing provider will notify MHSA of available units. MHSA will then notify applicants of appropriate household size, in writing, according to the order of the wait list. The letter shall:

1. State the type of housing available.
2. Indicate that the applicant shall have five working days in which to respond to the letter.
3. Ask the applicant if he/she wishes to be screened for the unit by the housing provider.

4. Inform the applicant that if he/she declines the unit he/she will not lose his/her place on the wait list.
5. Inform the applicant that if he/she declines a second time to a further notice, he/she will be informed that he/she will go to the bottom of the wait list.
6. Inform the applicant that if he/she accepts the referral, the mental health service provider for the housing project will assist him/her with the application process, including documentation, transportation, and support during any required property management interviews. The applicant has the right to accept or decline this and other assistance offered by services staff.

## **D.4 Supportive Services Plan**

It is the primary objective of the supportive services plan to support the individual in maintaining tenancy. The overarching principles of the MHSA housing service plan are client/tenant choice and services are voluntary.

### Overview and Description of Services

For purposes of this application, SCMHD shall be the designated service provider.

It is recognized that individuals targeted for the housing program will be individuals with complex and long-term social and medical issues. Each person's history of homelessness and untreated disabilities will require an individualized approach to assessment of needs and goals. The services and goals will be developed in partnership with the tenant and will be client directed utilizing a strengths-based approach. Services will include "whatever-it-takes" to support the tenant in maintaining housing. A multi-disciplinary team will provide the services. The multi-disciplinary staff will include a psychiatrist, nurse, social workers, consumers, and personal service coordinators. While all services will be voluntary, a range of mental health services shall be offered and provided to all MHSA eligible tenants who express desire for such services. The complete supportive services program will include, but not be limited to: assessment and evaluation, emergency assistance with food and clothing as needed, individual goal/service planning, assistance in accessing mainstream benefits, case management, independent living skills development, transportation assistance, money management and financial education, medical assessment, treatment and referral, addiction disorder treatment, employment services and opportunities, crisis intervention, leadership development, community building and any other services as needed. Services will occur both on and off site and will occur with a frequency that is individually determined. Supportive services staff will also assist tenants in accessing County and other outside services as appropriate to meet all of a resident's needs. Assertive engagement focusing on developing relationship and trust shall be provided to those individuals who initially decline services.

### Strategies and assistance with maintaining housing and supporting wellness, recovery, and resiliency

Employing the whatever-it-takes approach allows staff to identify what is needed to support the tenant in maintaining his/her housing. Beginning where the individual is in his/her recovery will identify where to start and focus. This usually begins with the fundamentals – an income and

health assessment. When indicated, an application for financial and health care benefits shall begin as soon as possible. Further, the range of services as described above shall be offered. A strength-based approach that encourages and supports choice, empowerment and focusing on the strengths of the individual has proven successful in recovery, fostering resiliency and the promotion of wellness. Based on the tenants' wishes, employment opportunities and supports will be made available, including assistance with transportation, job coaching and any other items that will be important for the tenant to be successful. Educational supports shall also be made available including tuition and financial assistance with books and supplies. Working with the tenant and property management staff when behaviors have been identified that place the tenant at risk for potential eviction will proactively support both the tenant and property management in avoiding this decision.

### Tenant Engagement

Frequent opportunity for service provider contact with tenants will support tenants toward housing stability. The types and frequency of services shall be directed by where the tenant is in his/her recovery. Examples include frequent yet non-threatening contacts to establish a supportive and trusting relationship for individuals in pre-contemplative stages, to supporting the individual by making available transportation to any appointments for the individual in recovery. Consumer staff will be critical to the successful support in assisting tenants in maintaining housing and are increasingly employed as personal service coordinators. Lastly, a strong working relationship between the service provider and property management is crucial to supporting the MHSA clients in maintaining tenancy. This relationship is described below.

### Service Provider(s) and Property Management Relationship

A critical element of supporting tenants in maintaining housing is the communication and relationship between the service providers and the property management staff.

The supportive services program at McMinn Avenue - Shared Housing will be provided by SCMHD. As such, SCMHD will provide the single point of contact for communications and coordination of supportive services regarding the MHSA clients. When necessary, additional supportive services may be accessed by the appropriate SCMHD team. SCMHD personal service coordinators will meet as necessary with the property managers for Multi-Disciplinary Team meetings where individual client cases will be reviewed. Release of Information forms will be presented to each client for signature in order to allow for maximum sharing of information. To address urgent issues staff will be connected through a conference call to discuss the issue and create a combined supportive services plan. All service staff will work as a unified team to help tenants reach their goals and will meet as often as necessary. When tenant behaviors place an individual at risk for eviction, property management staff will communicate with the appropriate SCMHD team. With a clear delineation of roles and responsibilities between service providers and property management, the goal of such communications will be to support housing retention for tenants.

## **D.5 SUPPORTIVE SERVICES CHART**

<b>Supportive Service</b>	<b>Target Population</b>	<b>Service Provider(s)</b>	<b>Service Location</b>
Case Management: Needs assessment, develop goals/action plans, resource advising/referrals, advocacy with other service providers, life skills training.	Adults or Older Adults with Serious and Persistent Mental Illness (SPMI)	Sonoma County Mental Health Division(SCMHD) Team based Individual Service Coordinator	On & off-site *transportation assistance provided to off-site services when needed.
Psychiatric Service: psychiatric assessment, & medication services	SPMI	SCMHD Team based Psychiatrist/Nurse	Primarily off-site with transportation provided when needed. Nursing services (not including the dispensing of medications) may be provided on-site when appropriate.
Substance Abuse Services: Chemical dependency assessment and counseling, resource advising/referrals, AA/NA meetings	SPMI with substance abuse problems	SCMHD Team	Off-site with transportation assistance when needed
Referrals to and Advocacy with health Care Providers	SPMI	SCMHD Team	Off-site
Personal Financial management Support: budgeting, credit repair, money management	SPMI	SCMHD Team based Individual Service Coordinator	Usually off-site with transportation assistance when needed
Rental Assistance: One-time emergency assistance with move-in costs, rent, utilities	SPMI	SCMHD	On & off-site
Employment Assistance: skills assessment, job search coaching, career plan development	SPMI	SCMHD	Off-site with transportation assistance when needed
Peer Counseling: peer mentoring services to assist in reducing homelessness and improving independent living skills; assistance with Wellness Recovery Action Plans.	SPMI	The Wellness & Advocacy Ctr. & Interlink Self Help Ctr.	On & off-site
Facility Support: Regular tenant meetings with facility manager	SPMI	Property Manager	On-site

\*Transportation assistance may include: the direct provision of transportation by car or van; bus passes; cab vouchers; carpool assistance; arrangements for para-transit; bus use training, etc.

**Primary Service Provider:** County of Sonoma Department of Health Services, Mental Health Division
