

HRMS Monthly Newsletter

Linked Together Through Technology

What's Happening, When?

Our request for September is for each of you to take the time that you would have used to participate in the monthly HRMS Information Session to complete the survey described in the HRMS Soundings article.

It is important that we have a clear understanding of whether or not our communications have been effective, what the different learning styles are for training, and what potential equipment limitations there may be in each department.

The HRMS Information Sessions will resume in October.

HRMS Soundings

Thanks to all of you who participated in one of the HRMS Soundings sessions last month. They were a huge success! The focus of each session was to get your input on how we can create an effective training and implementation plan. Your active participation generated some great ideas that we will use as we continue to develop our end-user training plan.

Next week we will be distributing a survey which will allow those of you who were unable to attend a session an opportunity to provide your input. For those of you who did attend a session, the survey will compliment the feedback that you have already provided. Please take a few minutes to complete the survey when you receive it.

Next month we will provide you with an overview of the feedback we receive and how we plan to incorporate some of your ideas into the HRMS training plan.

Thanks again for your continued support!

“The most basic of all human needs is the need to understand and be understood. The best way to understand people is to listen to them.”

Ralph Nichols
