**Subject:** Asphalt Plant - Asthma concerns

---

Hi

I understand that I am to email you with my concerns about the potential for Dutra to put in an asphalt plant less than a mile south of my home at McNear Landing. I am the mother of 4 young children. My 10 year old son suffers from asthma. As you can imagine, this is a serious illness and not one that can be taken lightly. One of the triggers for asthma is pollution. I therefore would like to register my opinion as being AGAINST the asphalt plant. Please, please for the sake of my son's health do not let this plant go in so close to our neighborhood. It is the difference between leading a normal life and constant visits to the emergency room.

B5-1

Thank you  
Sharon Whisman
