Project Description:

Required Attachments:

1. Geotechnical Report prepared by a geotechnical engineer evaluating the site for the proposed project.
2. Site plan that meets the requirements of the Minimum Standard Site Plan (CSS-019) and is prepared by a professional licensed by the State of California (surveyor, civil engineer or architect).

I understand that a site evaluation may be required in the future if:

1. The information shown on the project plans is found to be inaccurate; or
2. Revised project plans are submitted which include work where a site evaluation would be required; or
3. During plan check review, PRMD staff determine that the site conditions require a site evaluation.
