

Percolation Test Not Approved

WLS-007

Purpose: The purpose of this form is to specify the basis for not approving a septic system percolation test.

_____ Consultant's Name		_____ Site Address
_____ Mailing Address		_____ City/Town
_____ City/Town	_____ State/Zip	_____ Assessor's Parcel Number
_____ Phone	_____ Fax	_____ Property Owner
_____ SEV Number		_____ Subdivision Number and/or Lot Number

After evaluating the data submitted to the Permit and Resource Management Department, it has been determined that the following checked items are not in compliance with the on-site sewage disposal regulation. The percolation test is not approved for those reasons:

A. The percolation test was not conducted in accordance with Sonoma County standards. Specifically:

The following items are not in compliance with on-site sewage disposal regulations:

- B. The leach field and/or reserve area does not have an acceptable percolation rate for the proposed system.
- C. Groundwater was measured to be _____ inches. The proposed septic system requires groundwater to be at or below _____ inches.
- D. Permeable soil beneath the trench bottom was measured to be _____ feet. The proposed septic system requires permeable soil beneath the trench bottom to be a minimum of _____ feet.
- E. The following Regional Water Quality Control Board requirements have not been satisfied:

F. Other:
